

World Learner School

As World Learner School, along with the rest of MN schools, enters a new era of education with Distance Learning next week, we thought it was important to offer some 'homework' for our parents before we unveil our lessons for children.

Your child will be away from their social network for many days in the coming weeks. We know that to the elementary child and especially to the adolescent teen, peers are very important. As time away from peers increases, children will be searching desperately for interaction with these important influences. The internet will play a vital role in accessing new and existing relationships with like-minded people. As such, it is a vitally important time for parents to review family values and safety perspectives concerning the internet.

Please review the following article for some tips for you to use as you support your child in this 'new normal'.

Please note the following option for families without consistent home internet:
Internet Essentials Free to New Customers: It's even easier for families who live in a Comcast service area to sign-up for Internet Essentials. New customers will receive 60 days of complimentary Internet Essentials service, which is normally available to all qualified low-income households for \$9.95/month.

WLS Distance Learning Platform - Google Classroom

World Learner School will use Google Classroom to streamline the process of sharing files between teachers and students. Google Classroom combines Google Drive for assignment creation and distribution, Google Docs, Sheets and Slides for writing, Gmail for communication, and Google Calendar for scheduling. WLS students have a gmail that is already used to access Google features. Classroom teachers will send information about student emails and will be posting lessons and other information in Google Classroom daily by 9:30am.

WLS Communication Tool - Google Meet

World Learner School will use Google Meet as a video conferencing app that is focused on conducting online meetings. Since it is in our Google Suite of apps, teachers and students can easily join in on lessons, follow on work and meetings.
