Welcome to Kids Club

We are glad that you have chosen World Learner School for your childcare needs. The World Learner School is a public charter school located in Chaska, MN. World Learner School is a Montessori school and abides by principles founded in this pedagogy. More information about Montessori education and charter schools is featured in this handbook along with information specific to World Learner School,

This family handbook outlines the Kids Club program, policies, and procedures. Please know that Kids Club reserves the right to amend its policies and procedures at any time. Program staff will update the Kids Club Family Handbook in a timely manner in the case of any policy and/or procedure changes.

Mission Statement of World Learner School

The World Learner School's mission is to create a school that supports an experiential collaborative learning (Montessori) program that empowers children to unfold their full potential as whole and unique persons in classroom, local and world communities.

Children with varying academic abilities, learning styles and challenges complement each other in a multi-age classroom designed to promote cooperative learning. The World Learner School continues Dr. Maria Montessori's work in developmental psychology and education, incorporating the work of others in these fields while adapting to the needs of the children in the twenty-first century.

The World Learner School admits students of any race, color, national and ethnic origin to all rights, privileges, programs and activities available to students at the school. The World Learner School does not discriminate on the basis of race, color, or national and ethnic origin in administration of its educational policies, admissions policies, and the school-administered programs.

Summary of Montessori Education

Montessori is a method of education that is based on hands-on learning, collaborative play and self-directed activity. In Montessori classrooms, children make creative choices in their learning while the classroom and the teacher offer age appropriate activities and lessons to guide the process. Children work in groups and individually to discover people, places and knowledge of the world. Montessori classrooms are specifically designed to meet the developmental needs of children within this age range. Dr. Maria Montessori discovered that experiential learning in this type of classroom led to a deeper understanding of language, math, science, music, social interactions and so much more. Each tool and material in a beautifully designed Montessori classroom supports specific aspects of a child's development, creating a match between the child's natural interests and the available activities. Because of the match, children can learn through their own experience at their own pace. Children are allowed to follow their natural curiosities that exist in all humans, to build a solid foundation for life-long learning.

Charter Schools

A charter school is a public school and is part of the state's system of public education. The World Learner School is located within the boundaries the local district, Independent School District 112 – Schools of Eastern Carver County. According to MN statute, charter schools are required to work with an authorizer to ensure due diligence as a public school. The authorizer for WLS is Audubon Center of the North Woods and more information on ACNW can be found at www.audubon-center.org.

The World Learner School is organized and operated as a public, non-profit organization offering a non-sectarian educational program. Its Board of Directors is elected by parents of students enrolled in and staff employed by the charter school. The Board of Directors create policies for the school to operate by while the management of the school ensures those policies are implemented and adhered to. The Board of Directors hires a director who assumes responsibility for development of the curriculum and management of the school. Charter schools are required to provide their annual report of academic goals, progress and achievement in addition to submitting a financial audit to the Department of Education and to their authorizer each year.

Our History

Local families and Jonathan Montessori School staff started the World Learner School with an interest in extending Montessori education beyond the preschool years. Jonathan Montessori has, since 1972, offered high-quality preschool experiences to children 2½ to 6 years old. Both schools are non-profit organizations where parents are highly involved in the leadership of the school and in classroom support. It was the vision of these families and of the Jonathan Montessori staff that led to the creation of The World Learner School. While several options were considered for creating a Montessori elementary school, the concept of a charter school was the first choice. Charter schools are public schools and funding comes from the State's per pupil allocation, as it does for other public schools. Therefore, tuition is not charged to families for their child's attendance. The families and staff who developed the school wanted to create a learning community open to all families without finances being a concern.

The World Learner School did work closely with the administration, teaching staff, and school board of District 112, our original sponsoring district. While the authorizer does not provide financial support for the charter school, they do agree to work together to ensure success. The State of Minnesota Department of Education has complimented The World Learner School and District 112 for their exemplary cooperation and positive working relationship.

The school opened on September 5, 1995 with one class of children 6 to 8 years old. The class was made up of learners with both previous Montessori experience and those who had not attended a Montessori preschool. Since some of the children were familiar with the Montessori materials and learning procedures they served as mentors to new students entering the class.

The following year, the school expanded to include another class of children 6 to 9 years old. The World Learner School was housed in the lower level of the Jonathan Montessori building and at that point filled both classrooms in that space.

During the 1997-1998 school year, the school added its first upper-level class consisting of 12 children 9 and 10 years old. These students became pioneers, attending class at the campus of The World Learner School in downtown Chaska. With the completion of our building project in 1999, the upper elementary class joined the rest of the school in the Jonathan Montessori building in December of 1999. Our most recent building renovation project and expansion was completed in January 2003. The building is now owned by the WLS Building Company. In 2004-2005 we added our middle school which serves 7th and 8th grade students, and we graduated our first eighth graders on June 7, 2006!

In 2011, as MN statute for charter school authorization changed, WLS sought to engage in a relationship with Audubon Center of the North Woods. As an established authorizer of several charter schools, many which are Montessori, working with ACNW was determined to be a natural fit for WLS. Since becoming authorized by Audubon Center of the North Woods, WLS administration and Board of Directors has collaborated with ACNW to meet the contractual obligations of the agreement between the two entities. Various reports on the operations,

financials and academic performance are available for review. Please contact the office to receive a copy of the reports

In late 2011, WLS embarked on another huge adventure as both JMS and WLS determined that the current building footprint was not large enough to meet the needs of both schools. As a result, the schools made arrangements for the refinancing of the mortgage to allow for WLS alone to pay for the rent of the facility. Shortly after, JMS was able to purchase the existing facility directly to the west of the building from St. Andrew Church. Beginning in fall of 2012, WLS occupies the entire building at 112050 Hundertmark Road and JMS owns the facility at 112090 Hundertmark Road, effectively creating a Montessori campus!
